Aim of Application

To, as a consultant, create functional software on the bleeding edge of technology, using my programming knowledge in the real world. I want to use this opportunity to become a better programmer and get to see all the different parts of software development.

Primary competencies

- ◉ Outgoing
- ◉ Creative
- ◉ Eager to learn
- ◉ Good at collaboration
- ◉ Passionate about effective problem solving

Education

MSc in Computer Science, Specialising in Software   *08/2019 – 06/2024*

5th year

Lund University Faculty of Engineering

Work experience

🌱 Research Assistant, Lund University   *2023, Lund*

University computer science reasearch is quite different from most other workplaces, and has provided me other learning experiences than my previous work. I and my colleague have taken significant responsibility over the decision-making and creation of a new research project.

🗞 Developer Intern, Aftonbladet   *Summer 2022, Stockholm*

Working at a large company has been a great opportunity for deeper understanding of many different aspects of softaware development. I've worked full-stack in a team of experienced developers to bring new features and designs to millions of users.

</> Frontend Developer, WeKnowIT   *2021, Remote*

As developer at a consulting company my work has consisted of various smaller tasks along with some larger projects, mostly working with React. I have, for the first time, programmed in a work environment utilizing agile development. This was my first foray into frontend development, laying the groundwork for what has since become a passion.
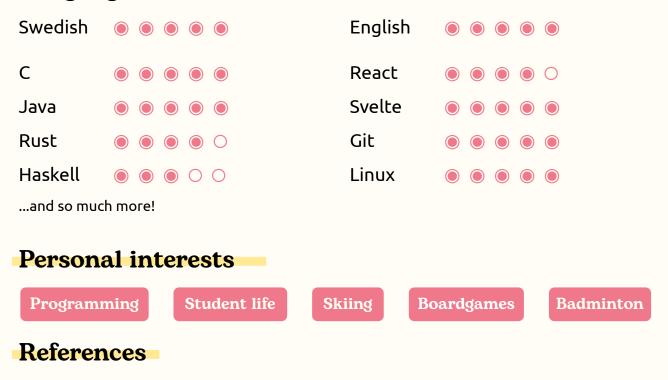

Participation in student life

D-guild at TLTH

Pepper 2021. One of the most important positions during the introductory weeks. It involves planning large activities with hundreds of participants, and creating a wholesome and welcoming atmosphere. Work extends throughout the year, by a group of ten. Cooperation and solidarity are key in tackling arising challenges.

Introductions volunteer and mentor 2020 & 2022. As a mentor during the introductory weeks at LTH I learned to work in a group and be responsible for activities that interest large groups of people with different backgrounds and interests.
